Greater Phoenix Orienteering Club - Getting There is ALL the Fun!

Sept 16-17 - Ft. Tuthill (Flagstaff)

A new GPHXO orienteering season begins this month with two days of events in the Flagstaff area!

Sat. Sept 16—Beginner's Clinic and Two Sprint Events

Please join us for a morning of orienteering fun in the cool pine forest at Fort Tuthill Park. Fort Tuthill is a Coconino County Park located several miles south of Flagstaff. Starting at 9:00, we'll conduct a beginner's training near the Flagstaff Extreme Adventure Course office. We'll continue the morning with two sprint courses starting at the same site. You're welcome to participate in one or all of the morning's events. All the events are free!

Sun. Sept 17—Five Hour Adventure Race, 2 Hr. Score-O and Bike-O

Our primary orienteering event on Sunday is a 2-hour Score-O. The event will take participants in and out of the hills and washes in the Fort Tuthill Park. The vegetation is mostly open pine forest with some areas of thicker brush. Don't worry, our maps highlight areas where there's a higher concentration of vegetation. Participants have up to two hours to visit as many "destinations" as they can.

For those who would rather tour the area on a mountain bike, we're including an interesting Bike-O

course that takes participants through more of the area. The Bike-O will have some minor biking challenges but does not include anything overly technical. The navigation for the Bike-O is easier than that for the Score-O. Destinations on the map are located within 100 meters of existing trails. Participants have as much time as they need, up to the 1:00 PM cutoff time, to visit each destination in order.

Finally, for those looking for a higher level of adventure, we're offering a longer Adventure Race that includes navigation by both mountain bike and on foot. During the adventure race, individuals and teams start together in a mass start at 8:00 AM. The race begins with a trek section with fairly easy navigation. Next, teams complete the Bike-O. Finally, participants use the remaining time to find as many of the Score-O destinations as they can.
